Design homes and buildings with AI, from floor plan to 3D walkthrough

Describe the home you have in mind, and AI Plan Creator drafts the floor plan and a live 3D model, furnished and with a garden. Change anything by hand or by asking, all in your web browser.

1 Describe it

A sentence is enough: the rooms, the size, a style you like.

2 See it

A plan to scale and a 3D model, furnished, with a garden.

3 Change it

Drag walls and furniture, or ask the AI agent in plain words.

What you get

- 25 design styles, furnished rooms and landscaped gardens
- Lighting, electrical and plumbing plans (schematic)
- Elevations, sections, roof and site plans, and a PDF set
- Photos and video, and share links with Premium
- More than 1,000 store designs, 20 included with Premium
- Develop a section: what a site could take (indicative)
- Works from Claude, ChatGPT and Grok
